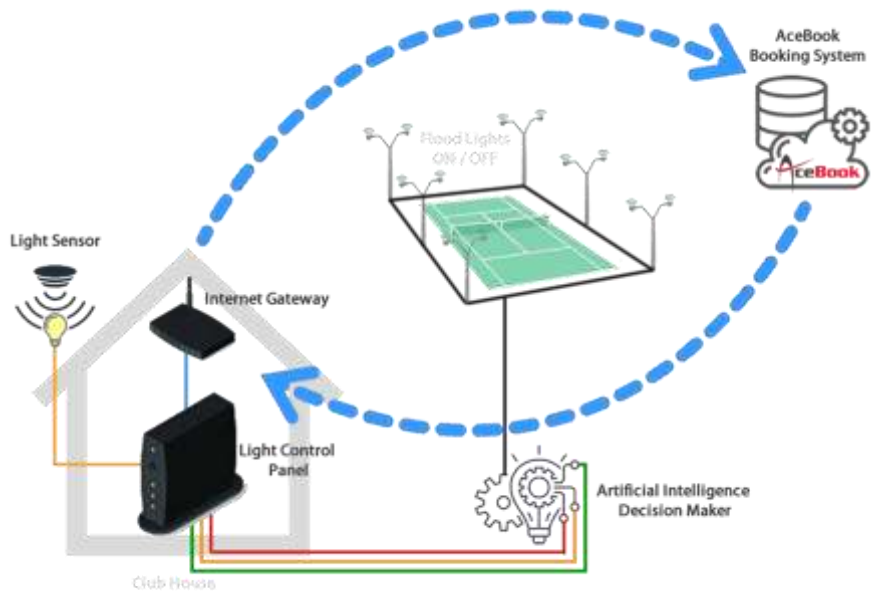
SMART LIGHTS

Simply book, pay the fee, turn up and play



This unique, state of the art, industrial grade automation system, combines Artificial Intelligence decision making to turn lights:

- **ON** if a booking exists and it is too dark to play in daylight.
- **OFF** when the booking ends.

Fully Automated
No more cards, coins or manual interventions.

Reliable
Industrial grade, 30 years' experience in building management

Very Competitive
Lowest investment and servicing cost on the market.

Cleaner for the Environment
Less energy used means better for the environment and your wallet

SMART LIGHTS was specifically designed for indoor and outdoor facilities, at the most competitive price on the market with unrivalled technical support. Payment for lights to your club's Stripe or Paypal account is made online when players book a court with AceBook.

The system can be seen in full operation in Donabate Portrane Tennis club.
